Dear Gopal:

*I/Ad*

I am very sorry this took so long to process. But here it is anyhow.

We were very pleased you could visit us, and I trust we will see you again before too long.

The occasion is no longer so urgent, but I will still be interested to hear more about the microflora at Tromby. I never did find the reference to it!

We have just finished our symposium and it is good to have some peace & quiet again.

With best regards
